To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA regarding Docket No. 98N-1265. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I refuse to take the standard "one size fits all" hormone therapy which is currently being pushed by most pharmaceutical companies. However, even tho I live in a town of more than 150,000 people, we do not have a local formulary pharmacy. Please leave the current legislation alone, or women like myself will not be able to obtain the kind of customized prescription which my doctor has recommended for me.

Sincerely,

Mary Hurst
